Professional Summary

Computer Science graduate (**CGPA 9.43/10**) with **1 year+ of combined internship experience** in Java backend development, secure desktop applications, and real-world web solutions. Developed **10+ RESTful APIs**, implemented AES-based encryption, optimized SQL queries, and contributed to live business website modules and service platforms. Seeking a Software Developer / Java Full Stack Developer role where I can contribute through clean code, secure architecture, and scalable software solutions.

Technical Skills

Programming Languages: Java, Python, JavaScript, SQL, C, C++

Frontend Development: HTML5, CSS3, Bootstrap, Tailwind CSS, React.js,

Backend Development: Spring Boot, JDBC, Node.js, .NET Framework, PHP

Database Technologies: MySQL, MongoDB, SQL Server, CRUD Operations, Joins, Indexing, Query Optimization

Cloud & DevOps: AWS (Basics), Google Cloud Platform (Basics), CI/CD, Jenkins, Linux Basics, Git, GitHub, Maven

Core Computer Science: Data Structures & Algorithms, Object-Oriented Programming (OOP), DBMS, SDLC, System Design, Problem Solving

AI & Modern Development: Prompt Engineering, AI-assisted Development, ChatGPT, Cursor, GitHub Copilot, Gemini

Machine Learning & Data Science: Supervised & Unsupervised Learning, Classification, Regression, Model Training, Data Analysis, Data Cleaning, Data Visualization, Statistical Analysis

Python Libraries: NumPy, Pandas, Matplotlib, Scikit-learn

Security & Authentication: AES Encryption, Authentication & Authorization

Developer Tools: GitHub, Eclipse, VS Code, Visual Studio, Jupyter Notebook

Experience

Software Engineer Intern

Mithra Enterprises, Pune

May 2026 – Jul 2026

- Contributed to live company website and service platform development for real-world business use cases.
- Built and updated responsive sections for **AI Automation, Web Development, Corporate Services, and Blockchain & Web3** pages using PHP, HTML, CSS, JavaScript, and Bootstrap/Tailwind CSS.
- Used AI-assisted development tools such as **ChatGPT, Cursor, GitHub Copilot, and Gemini** to accelerate UI development, debugging, content refinement, and implementation productivity.
- Worked on reusable website modules, service page layouts, and content-driven sections to improve maintainability, presentation quality, and SEO-oriented page structuring.

Java Full Stack Developer Intern

Zidio Development Pvt. Ltd., Pune

Aug 2025 – Dec 2025

- Built **10+ RESTful APIs** using Spring Boot, directly supporting the company's scalable backend infrastructure.
- Reduced SQL query execution time by optimizing joins and indexing, improving data retrieval speed for high-traffic endpoints.
- Implemented role-based authentication and session management, ensuring secure multi-user access control.
- Integrated frontend (React.js/HTML) with Spring Boot backend, achieving seamless end-to-end data flow across modules.

JavaFX Developer Intern

MRND Lab Pvt. Ltd., Pune

Jan 2025 – Jun 2025

- Delivered a secure desktop application with **AES encryption** for data storage and transmission, meeting security compliance requirements.
- Designed modular components using OOP principles, reducing code duplication and improving maintainability.
- Performed systematic debugging and performance tuning, increasing application stability for end users.

Projects

Secure Data Transmission System - Developed a secure file-sharing system using Java, MySQL, and AES encryption. - Implemented user authentication to ensure safe and authorized data access.	Java, JDBC, MySQL, AES
Job Portal Application - Built a desktop job portal for Admin, Employer, and Job Seeker roles. - Used Java, MySQL, and MVC architecture for efficient data management.	Java, MySQL, MVC
CYBEORCH Labs Website - Developed responsive business website pages using PHP, JavaScript, and Bootstrap. - Improved UI, SEO, and reusable service modules for better user experience.	PHP, JavaScript, Bootstrap, MySQL
Doctor Appointment System - Created an ML-based doctor recommendation system using Python and MySQL. - Managed patient records and appointment scheduling with improved prediction accuracy.	Python, Machine Learning, MySQL

Education

B.Tech in Computer Science and Engineering <i>MIT College of Railway Engineering & Research, Barshi</i>	2022 – 2025 CGPA: 9.43 / 10
Diploma in Computer Science Engineering <i>Shri Siddheshwar Women's Polytechnic, Solapur</i>	2019 – 2022 81.71%

Certifications

- Core Java Programming Certification - Java Full Stack Development Certification	- SQL and Database Management Certification - Data Structures and Algorithms Certification
---	--

Additional

- Consistent problem-solver — participated in coding competitions and hackathons; comfortable with algorithmic challenges.
- Strong Git-based collaboration workflow: branching, pull requests, code reviews.
- Clear communicator with experience presenting technical demos to cross-functional teams.
